

## HOBO<sup>®</sup> CABLE-RWLMOD

### Water Level Sensor Cable for RXMOD-W1

The water level sensor cable provides the connection between the HOBO RX3000 Remote Monitoring Station and the water level sensor. A HOBO RX3000 station, a water level sensor module (RXMOD-W1), and a water level sensor (MX2001-0x-S or MX2001-0x-Ti-S) are required for use with this cable.

Cables can be ordered in lengths from 1 meter to 400 meters for deployment in a wide range of applications. The 1-, 2-, 5-, 10-, 15-, 30-, and 60-meter cable lengths are standard and typically in stock. Custom cable lengths require a lead time of one to two weeks.

PLEASE NOTE: Custom cables are ineligible for return.

#### Supported Measurements:

Water Level

#### Key Advantages:

- Interchangeable Kevlar-reinforced cable can be used to suspend sensor
- Provides sensor communication and power
- Two O-rings in the water level sensor connector ensure a long-term waterproof seal
- Cables are easy to attach or change
